It is intended for those who wish to make the Army their profession in life. The course of study at the College will, however, be such that, should a boy fail in the Army and Air Force Entrance Examination, he will be in an favourable a position for entry to a university as if he had been educated at an ordinary school.

(3) Candidates must have attained the age of eleven years and be under twelve years on the 1st August 1933.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with the Appendix A to this notification.

(5) The fees will be Rs. 1,800 for each school year and are liable to enhancement hereafter, if circumstances require. These fees will include tuition, mossing, school servants, washing and mending and medical attendance of the ordinary kind, and, as initial provision, one suit of the uniform to be worn by students when at the College.

In addition to the fees referred to above, the parent or guardian of a cadet will be required to deposit with the College authorities, on his entering the College, the sum of Rs. 50 which will be returned when the cadet finally leaves the College provided that all dues have been paid.

In the event of it becoming necessary for cadets to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the cadets.

A full term's notice is required to be given of intention to withdraw a cadet from the College. In the event of such notice not being given, the parent or guardian will be required to pay one full term's fees in lieu, unless it is considered that the circumstances in which the cadet was withdrawn are such as to call for special consideration.

Parents or guardians of candidates who are sons of Indian Officers of good service are informed that owing to the present financial stringency no reduction of fees will be granted for some years to come.

(6) Entry to the College will not be open to candidates who are already married.

"I, _____, father / guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, hereby declare that my son / ward is unmarried and that he will remain a bachelor whilst at the College and until he has completed, subsequently, a course at the Indian Military Academy, Dehra Dun, or the Royal Air Force College, Cranwell, England."

(8) One general mess will be maintained. All students will be required to mess together. Special care will be taken that no food is served in the mess which could in any way offend the religious susceptibilities of any student.

ANDHRA UNIVERSITY.

NOTIFICATION.

RULES AND DIRECTIONS FOR THE ADMISSION OF HOLDERS OF SECONDARY SCHOOL-LEAVING CERTIFICATES TO UNIVERSITY COURSES OF STUDY IN THE ACADEMIC YEAR 1933–34.

Admission of holders of Secondary School-Leaving Certificates to University courses of study in the academic year 1933–34 shall be made only in accordance with the following rules and directions which shall apply in the case of those who have appeared for the qualifying Secondary School Leaving Certificate examination completing a course of instruction in the VI Form in one of the schools situated in the University area of affiliation (namely, Guntur, Vuyyuru, East Godavari, West Godavari, Kistna, Guntur and Nellore districts).

2. Only such holders of completed Secondary School-Leaving Certificates may be admitted to University courses of study and registered as matriculates under section 1 of Chapter XXIX (Andhra University Code) as (a) have completed not less than 15 years of age on the first day of the month in which the examination qualifying for such certificates is held unless specially exempted from the operation of this age limit, and (b) have been declared eligible for such admission, by the Syndicate.

3 A complete list of certificate holders declared eligible for admission to University courses of study will be published annually in the *Fort St George Gazette*, and a copy of this list will be furnished to the Principals of affiliated colleges. A certificate holder not included in one of these lists will not be entitled to registration as a matriculate under section 1 of Chapter XXIX mentioned above except as provided in paragraph 8 below.

4. (a) All Secondary School-Leaving Certificate holders whose certificates are issued under the authority of the Government of Madras will be declared eligible for admission to University courses of study who qualify under the following rules :—

(i) They should have presented at one time for the Secondary School Leaving Certificate examination (a) all the five subjects in Group A subject to the condition that students who have been specifically exempted by the Director of Public Instruction from the study of the Vernacular Composition and Translation need not sit for the examination in that subject, and (b) one subject under Group C.

(ii) Those who secure at the Public Examination not less than 35 marks in each of the "A" Group subjects.

(iii) Those who secure not less than 38 marks in English, not less than 38 marks in the selected second language, and not less than 105 marks in the remaining three subjects of Group A taken together, with at least 25 marks in each of those three subjects, provided they secure not less than 185 marks in the aggregate.

(5) The Principals of affiliated colleges will be permitted to admit for mathematics in the Intermediate course only such eligible candidates as have presented Algebra and Geometry under Group C of the Secondary School-Leaving Certificate examination, and have secured not less than 210 marks in the aggregate.

Provided that the Syndicate shall have the power to exempt from the operation of this rule, a student who, in the opinion of the Syndicate, is likely to profit by the study of Mathematics in the Intermediate course.

(6) In the case of a Secondary School Leaving Certificate holder who has been exempted the study of a second language, the total marks required for the purpose of the application of the above rules will be reduced correspondingly.

(7) Notwithstanding anything contained in the foregoing rules, a certificate holder who obtains in the aggregate not less than 60 per cent of the total marks (i.e., 240 in four subjects, 300 in five or 360 in six as the case may be) will be declared eligible for admission to University courses of study though he may fail to obtain qualifying marks in one or more subjects.

5. The Syndicate shall appoint a Moderation Board to consider and modify, if need be, the results of the examination before publication.

6. Any candidate for admission to University courses of study who in any year fails to qualify by reason of deficiency in any subject or subjects in which he has undergone examination will be required to appear again at the Public Examination in all the five subjects of Group A and one subject in Group C and his eligibility for admission will be determined according to the preceding rules with the proviso, however, that those candidates who desire to take Mathematics in the Intermediate course must also appear in Algebra and Geometry under Group C at the same time and fulfil one of the conditions laid down in 4 (b) above.

7 Certificates once scrutinized, the holders of which were found ineligible under the rules in force at the time of scrutiny, will not be reconsidered.

8. Notwithstanding anything contained in the foregoing rules, the Principals of Colleges will be permitted to make admission at their discretion of (1) Women holders of Secondary School-Leaving Certificates whether the names of such holders of certificates are included in the published list of certificate holders eligible for admission to University courses of study or not provided such students appeared for the qualifying Secondary School-Leaving Certificate examination after completing a course of instruction in the VI Form in one of the schools in the University area of affiliation and (2) women holders of Secondary School Leaving Certificates whose parents or guardians are either domiciled or resident in the Andhra University area, and who, after having studied in an institution in Madras or in the Ceded Districts or in Chittoor district, obtain marks qualifying for eligibility under the above rules. Certificate holders so admitted to colleges will be registered as matriculates under section I of Chapter XXIX.

9. The lists published annually in the *Fort St. George Gazette* will contain the names of all certificate holders, except those whose cases may be considered under the preceding section, found to be eligible for admission to University courses of study in affiliated colleges, under the rules and directions issued from time to time. It is, however, to be clearly understood that inclusion in the list confers on no certificate holder the right of admission to any affiliated college. The Principals of colleges are not only at liberty to restrict admission to such applicants as they may select but are further required to confine admission to such eligible certificate holders as, judged by their certificates, may be expected to profit by the particular course of study upon which they propose to enter in the college selected.

10. Notwithstanding anything to the contrary contained in the above rules, holders of Secondary School-Leaving Certificates under the old scheme who are permitted to complete their certificates by the Secondary School-Leaving Certificate Board in the examinations to be held in 1933 shall be declared eligible for admission to University courses of study subject to the following conditions.

(a) They should have presented at one time the following subjects for the Secondary School-Leaving Certificate examination :—

Algebra and Geometry ; Physics ; Chemistry ; Botany ; History of England and India ; Commercial Practice and Geography ; a Language ; Agriculture.

(ii) (1) *Group C.*—35 per cent of the marks in one of the following subjects :—

Algebra and Geometry ; Physics ; Chemistry Botany History of England and India ; Agriculture ;

or

40 per cent of the marks in one of the following subjects, if the other subject selected under Group C is not one of the five subjects enumerated above :—

Commercial Practice and Geography ; a Language ; and

(2) 35 per cent of the marks in the other subject under Group C.

Provided however that a certificate holder who secures in the aggregate 175 or 180 marks if he brings up Commercial Practice and Geography, or a Language and another subject in Group C not included in the five subjects mentioned in the second sub paragraph of rule (b) (ii) (1) in the five subjects but fails by a deficiency of not more than one mark in each of two subjects, not of the same group, shall be declared eligible for admission to University courses of study subject to the condition that the aggregate of 175 or 180 marks shall be decreased by 35 marks in cases where candidates have been exempted from studying Vernacular Composition and Translation.

(c) A Moderation Board shall be appointed by the Syndicate to consider cases of certificate holders who do not satisfy the above rule but come within either of the two following categories :—

(i) Those who get an aggregate of from 170 to 180 marks and not less than 35 per cent in each of the four subjects provided that if the qualifying subject in Group C under (b) (ii) (1) above is Commercial Practice and Geography or a Language 40 per cent should be obtained in that subject.

(ii) Those who get an aggregate of not less than 200 marks and not less than 35 per cent of the marks in each of the three subjects, not all from the same group, provided that if the qualifying subject in Group C under (b) (ii) (1) above is Commercial Practice and Geography or a Language 40 per cent should be obtained in that subject.

(d) Any candidate for admission to University courses of study who in any year fails to qualify by reason of deficiency in any subject or subjects in which he has undergone examination must again appear at the Public Examination in all the five subjects in which he has already undergone examination and his eligibility for admission will be determined, according to the preceding rules, either by the marks obtained by him at the last examination or by the average marks throughout in such subject obtained by him at the last and penultimate examinations.

NOTE.—For purposes of calculating the Average marks under clause 10 (d), a candidate who fails to appear in a subject or subjects in either of the two years shall be deemed to have obtained zero mark in the subject or subjects in that year.

3. Each tenderer must pay, as earnest money, a sum of rupees two thousand into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the Kurnool Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees four thousand in one of the forms prescribed in the Madras Public Works Department Account Code and sign an agreement in the proper Departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 8a of the Standard Preliminary Specifications of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in site. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Kurnool Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the Standard "Preliminary Specification" dealing with—

(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies the tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kurnool Division, or as set forth in the conditions of contract. The tenderer will however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should

also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work for which he will undertake to do the whole work accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections where unavoidable, should be made by erasing out, initialling, dating and countersigning.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderer must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No carriage or incidental charges will be borne by Government in connexion with the supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of, the programme will be the date on which the site (or premises) is handed over to the contractor.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. Every item will be paid on actual measurements.

18. All plans are subject to alterations to suit final designs.

19. Separate tenders should be submitted for the quantities under Part I and Part II. The Executive Engineer reserves the right to accept the tender for any one part alone.

Certain machinery and tools and plant are available at the workshop. The contractor may make use of them as per conditions specified in the Madras Detailed Standard Specification and pay hire charges, charges for running the machinery and for damages to machinery and plants, etc. The Government will not however be responsible for the efficiency or continuous working of the machinery and plant and for interruption to work, if any, caused consequently.

21. The work is now under execution departmentally. It will be handed over to the selected tenderer after the contract documents are signed and approved. The materials available at site may therefore be more or less than the quantities noted in the list, and small quantities of additional materials, such as lime, sand, surki and cement, etc., are expected to be available for use of the contractor at the time of handing over the work to him for execution. 6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant Standard Specification. Samples of materials as called for in the Standard Specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the Standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate, pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the Standard "Preliminary Specification" regarding payment of seigneurage, tolls etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the Standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work,

(2) earthage,
(3) construction plant,
(4) water and lighting,
(5) cleaning up during progress and for delivery,
(6) accidents,
(7) delays,
(8) particulars of payment.

The contractor should closely perune all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Tinnevelly Division, or as set forth in the conditions of contract.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form up in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

13. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

14. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

Report of Select Committee on the Bill further to amend the Madras District Municipalities Act, 1920, and the Madras Local Boards Act, 1920 29

Supplement:—
Bill No. 6 of 1933—Madras Co-operative Land Mortgage Banks—Tamil, Telugu, Kanarese and Hindustani.

Report of Select Committee to be presented to the Legislative Council of the Governor of Madras.

Under S.O. 41 of the Standing Orders of the Madras Legislative Council, the following Report of the Select Committee on the Bill further to amend the Madras District Municipalities Act, 1920, and the Madras Local Boards Act, 1920 (Bill No. 25 of 1931), together with the Bill as amended by the Select Committee is published :—

BILL No. 25 OF 1931.

A Bill further to amend the Madras District Municipalities Act, 1920, and the Madras Local Boards Act, 1920, for certain purposes.

To

THE HONOURABLE THE LEGISLATIVE COUNCIL OF THE GOVERNOR OF MADRAS.

WE, the undersigned members of the Select Committee appointed to consider Mr. Birley's Bill to amend the Madras District Municipalities Act, 1920, and the Madras Local Boards Act, 1920 (Bill No. 25 of 1931), have the honour to submit the following report.

2. The Bill was published in the *Fort St. George Gazette* in English on the 17th November 1931.

3. We met on the 7th and 10th February 1933 at the Committee Room, Fort St. George, for the consideration of the Bill, and on the 10th March we passed our report

4. We are satisfied that it is necessary to place a maximum limit on the amount of licence fee leviable by local bodies on motor vehicles plying within their territorial limits. After considering various alternative suggestions and the recommendations made by the Special Committee appointed by the Local Government to consider the subject of taxation of motor vehicles in this province, we have arrived at the following decisions:—

(*i*) As regards motor vehicles carrying passengers for hire, we think that the rate of fee should be fixed with reference to the number of passengers exclusive of the driver and the conductor, which the motor vehicle is intended to carry In the case of district municipalities, we consider that annas twelve per seat for each quarter or portion thereof of a year, would be a reasonable maximum. In the case of district boards, we consider that Rs. 7-8-0 would be a reasonable maximum.

In the case of motor vehicles which are to be used for hire within the jurisdiction of more than one local body the following principles will apply:—

(*a*) Every district municipality will be entitled to levy a fee on a motor vehicle in accordance with the rates prescribed by the regulations in force in the municipality whether the motor vehicle which is licensed by it is used for hire within the limits of any other local body or not;

(*b*) where a motor vehicle is used for hire within the limits of more than one district, the district board to which an application for licence is first made will be entitled to levy the full licence fee payable under its regulations. We have made it obligatory that an application for licence should first be made to the district board of the district in which the motor vehicle is garaged;

(*c*) where an application for a licence in respect of a motor vehicle has already been made to one district board and a subsequent application for licence is made to the district board of another district, the latter will be entitled to levy only two-thirds of the licence fee payable under the regulations in force in its area less one-third of the licence fee already paid to the district board to which the first application was made. The first mentioned district board will pay one-third of the licence

fee collected by it to the other district board. Every district board to which a subsequent application for licence is made can levy two-thirds of the licence fee payable under its own regulations.

(ii) As regards lorries, we think that a distinction should be made between a lorry plying for hire and one not plying for hire. With reference to the latter, both in the case of municipalities and in the case of district boards a fixed fee of Re. 1–4–0 per quarter should be levied and this fee should be payable to every local body within whose area it is used. In the case of a motor lorry plying for hire, we consider that a fee graduated in accordance with the unladen weight of the motor vehicle will be the proper fee. The rates which we have fixed will be found in the body of the Bill annexed. If a motor lorry plies for hire within the jurisdiction of more than one local body, the fee will be regulated in accordance with the procedure prescribed for vehicles carrying passengers for hire.

5. The subject of licence fees leviable by local bodies on motor vehicles is one of great difficulty, but we consider that the proposals we have embodied in the Bill are as satisfactory as any that can be devised.

6. A copy of the Bill as amended by us is enclosed.

7. We consider that it is necessary to republish the Bill.
